A SOC INSTITUTION

Campbell University is a charter member of Servicemembers Opportunity Colleges (SOC). The purpose of SOC is to assist mobile military students in their degree completion by encouraging member institutions to reduce administrative barriers.

Consequently, Campbell and other members keep residency requirements low, readily accept military and other non-traditional sources of credit, and maximize credit transfer from other accredited institutions.

Transferring students who meet residency requirements should request a SOC contract. This is a binding agreement detailing the courses necessary to complete a degree with Campbell.

All students at the Camp Lejeune/New River Campus, regardless of whether they are active duty or not, are included under the general provisions and philosophy of the SOC agreement. The same residency and transfer provisions apply to everyone.
